MEMORANDUM FOR:

THROUGH :

SUBJECT : Cryptologic Training Resources

REFERENCE : DIRNSA Memorandum (N-0658), dated
14 June 1973

1. The Navy proposal came up in the PMRG discussions in March as a tentative option. We have discussed this with [redacted]. He has had lengthy negotiations with the Navy on the merits of transferring training resources from the CCP and it now appears to both he and the Navy to be a less attractive idea in the face of possible CCP personnel decrements. [redacted] noted that, in any event, negotiations with the Navy and with the Army and Air Force to achieve some program-wide uniformity will probably take 8-12 months.

2. We will keep in contact with NSA on the progress of this issue. It is not a matter that requires a formal DCI position now. This should be looked at as one likely source of manpower space reduction, if substantial personnel decrements are required and if reprogramming of manpower spaces to non-intelligence programs is permitted as part of a decrement.

3. A copy of the CNO memorandum, cited in the reference, is attached.
